

K-LOVE radio is extremely important to me and my family in Tempe, AZ. The ability to have a radio station without obscenity or violence in its music or discussions is valuable when trying to raise children so that they do not value obscenity or violence.

K-LOVE provides good music – with a variety of styles that appeal to a range of listeners – a mix that is not found on any other station. K-LOVE also broadcasts the news in an unbiased manner – allowing the audience to form its own opinions. K-LOVE also provides positive news – examples of people who are doing things of service to others, their communities, their schools, etc.

I think that K-LOVE provides a service in the Phoenix community that is in the public interest because we need to hear encouraging information & music to keep our community healthy.
